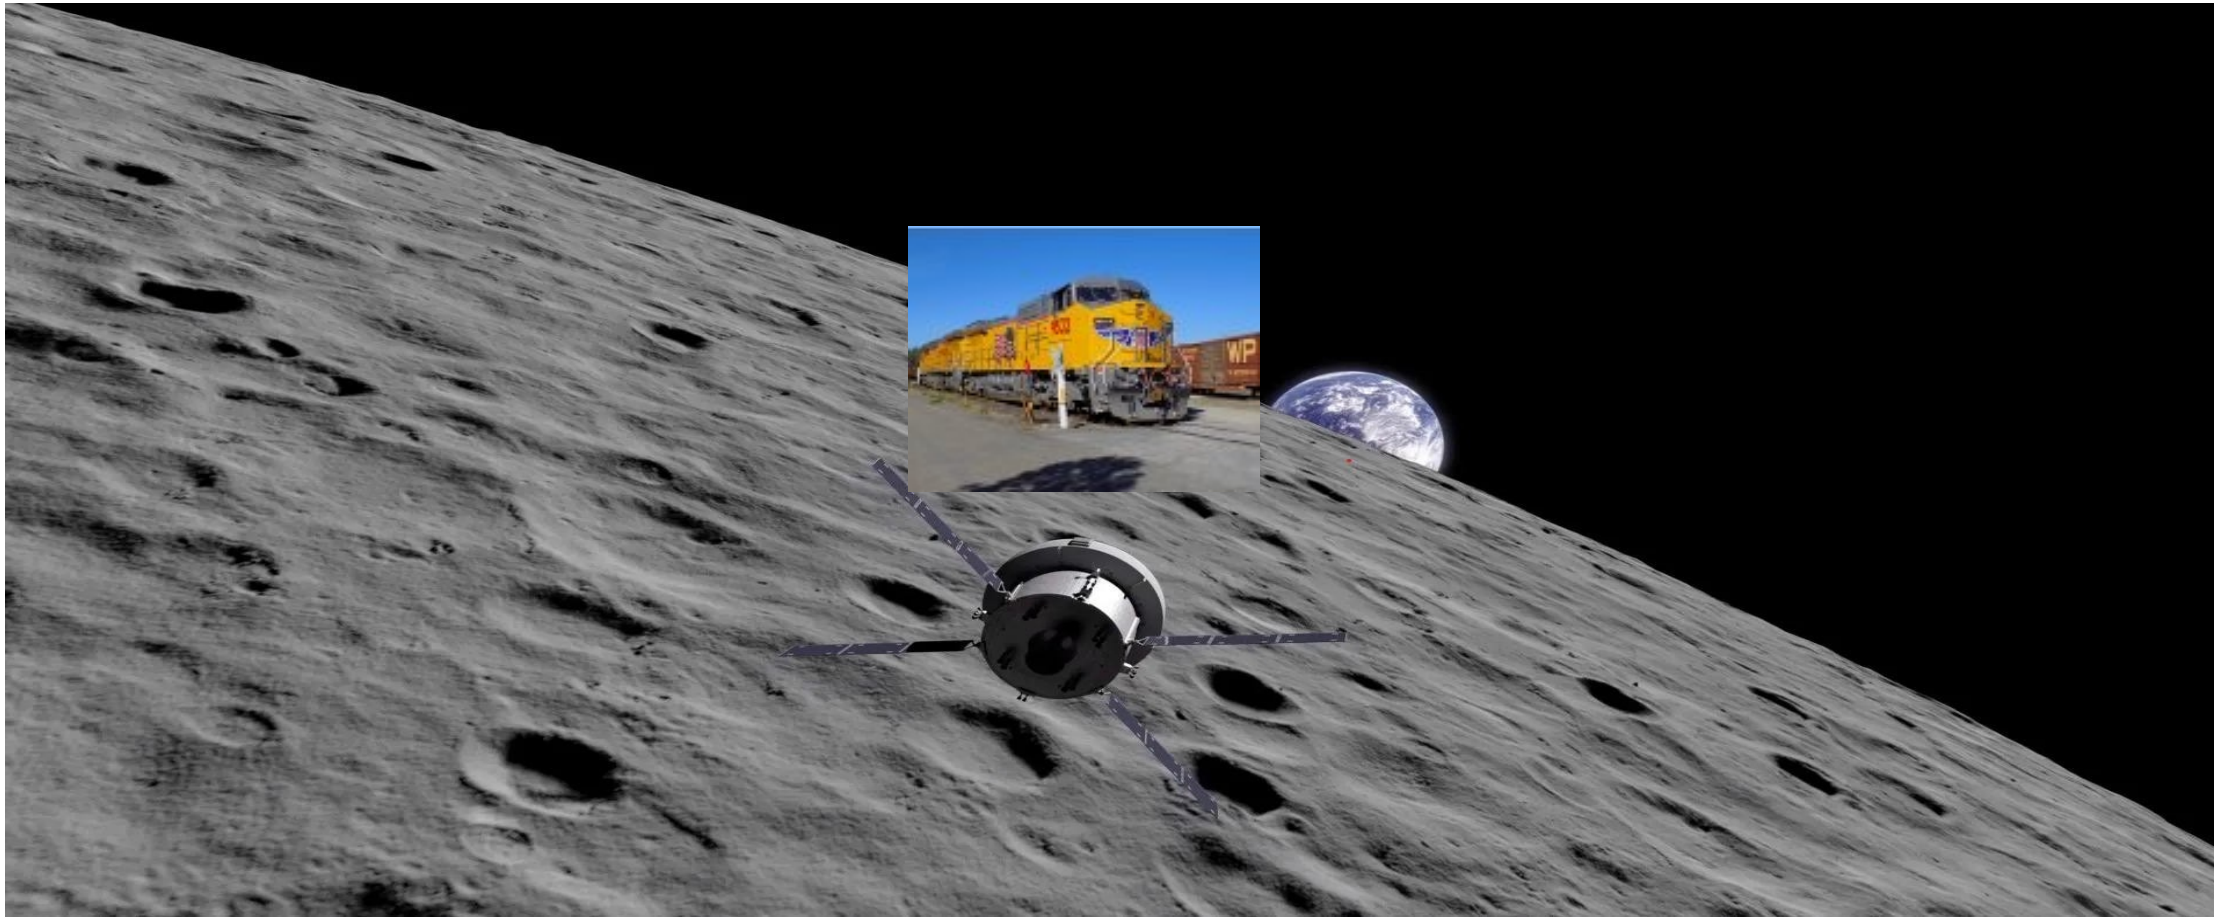
Union Pacific 9532 goes to the moon

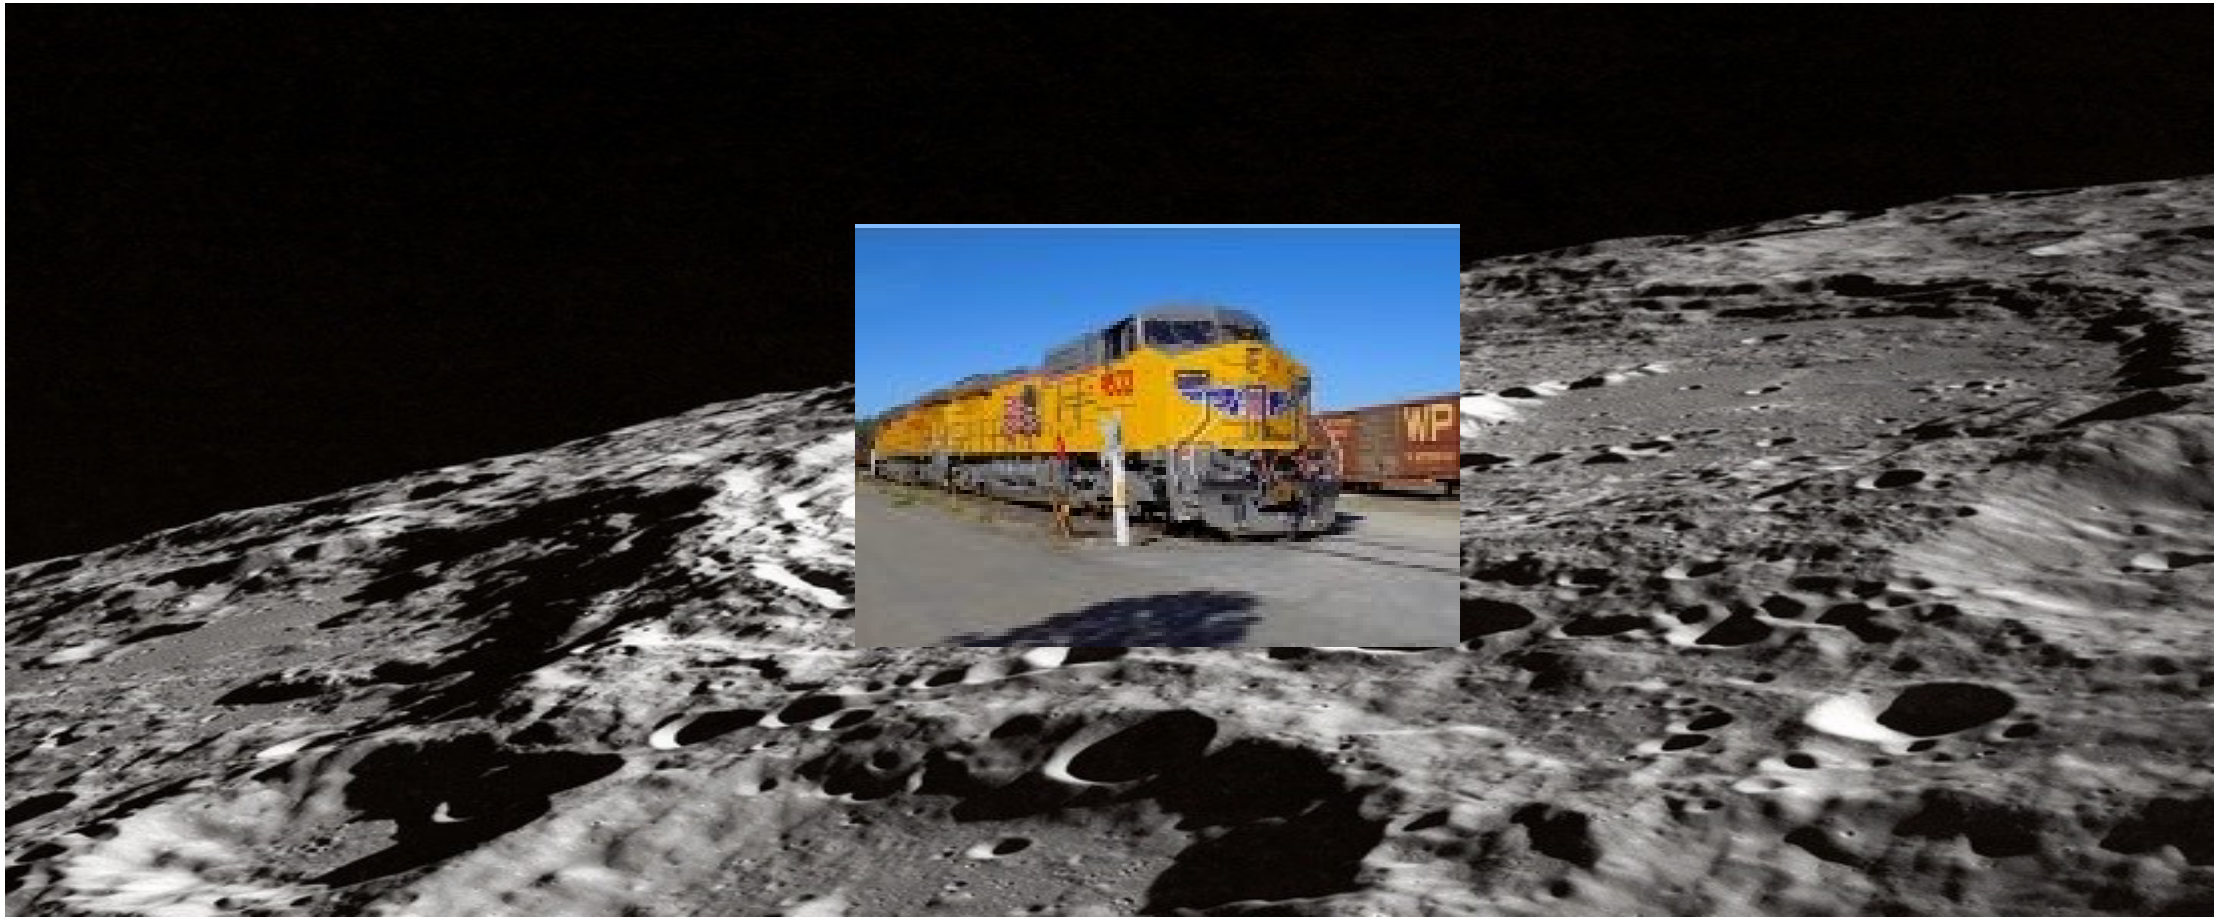
One day 9532 decided to go to the moon on a rocket.



As 9532 looked out on the Earth, he thought that’s really far away.

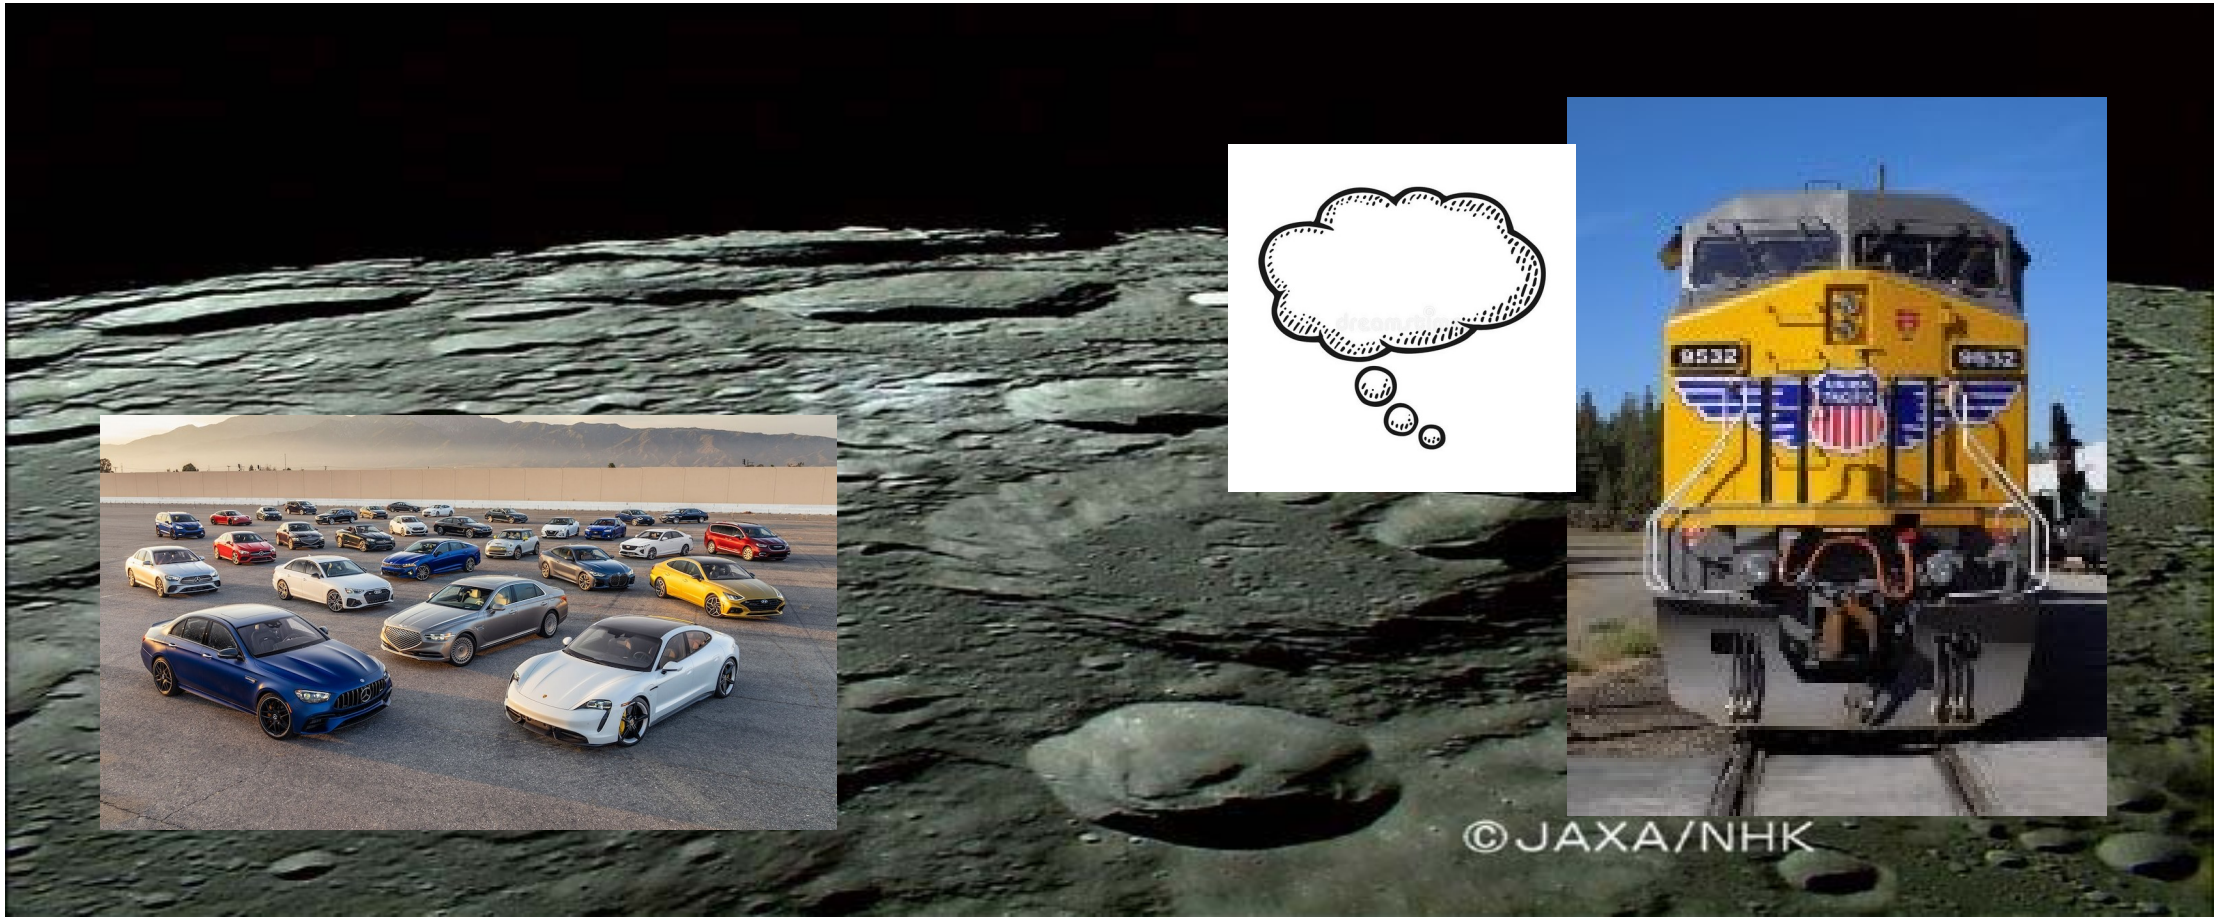
As the train moved over the surface he noticed the surface was bumpy.

As he got closer and closer to the edge the train felt happy.



As 9532 was on the moon he thought about cars.

As 9532 was thinking about cars he started to fall asleep.



Then 9532 went home and it was nighttime.
